

Serving the Community: Effectively and Efficiently

Everyone wins when the agency runs more smoothly — clients get the care they need, staff spend less time on paper and more time on productive work, and payroll and billing are processed as smoothly as possible.

"I clocked in the client from the supermarket phone to make sure he gets paid for the hours worked."

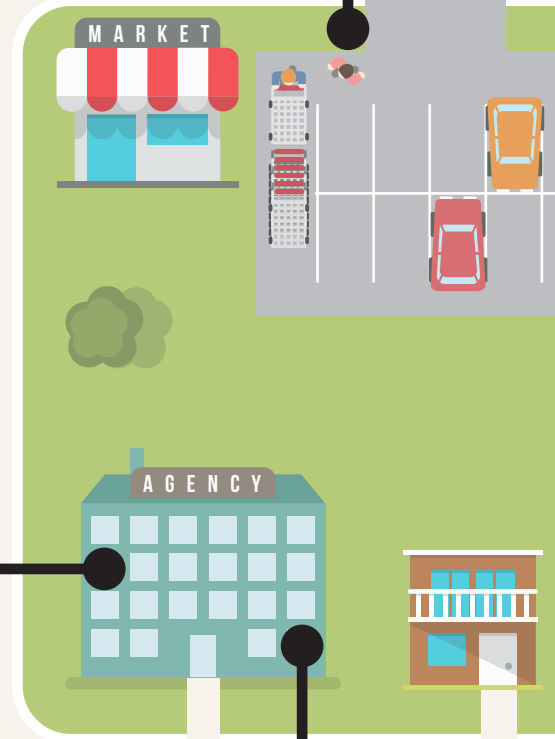

SUPPORTED EMPLOYMENT PROGRAM

"When I get home I better remember to use myMITC to request PTO and check my timesheet. I can't remember if I clocked out yesterday."

HCBS PROGRAM

"No more paper! This is so much better. I can get payroll and billing out of the way and get to more important tasks."

PAYROLL & BILLING

"Good thing the agency has these schedule reminders! I almost forgot that I had requested that open shift at the group home tomorrow."

GROUP HOME PROGRAM

"Taking attendance with my tablet is so much faster than the old paper forms! Plus, it goes straight into billing."

DAY PROGRAM

"Another call off! At least now I can use my smartphone to see who is available to fill the open shift."

VOCATIONAL PROGRAM

"With employee self-service, I spend far less time on the phone answering questions about PTO, payroll, vacancies, mileage claims, and training. I love it, and so do the staff!"
