

GROUP BILLING

DESIGNED FOR GROUP SERVICES (RESIDENTIAL, DAY AND VOCATIONAL, ETC.)

Use to:

- Track hours of service provided to individuals in residential, day, and vocational programs
- Minimize under or over billing
- Streamline billing procedures
- Automate complex billing calculations
- Establish daily, weekly, and period billing budgets by group home or day program
- Report hours variance to daily, weekly and period budget, and schedule
- Use with Client Schedules to track attendance and billing variances
- Prepare billing reports automatically based on service billing rates
- Calculate year-to-date utilization of services against authorized plan of care
- Withstand audits with unlimited detailed billing history
- Integrate with Billing to generate 837s

Group billing is available as a standalone application, integrated with client time and attendance, or as part of a complete end-to-end, agency-wide client and staff workforce management solution.
