

# MEDICAID ELECTRONIC SERVICE BILLING

MITC's Medicaid Service Billing works with MITC Individual Service and Group Billing to generate billing directly from real-time client attendance and service records.

## Features

- Generate 837s from MITC Time and Attendance
- Receive 835s (where available from state)
- Automatically post and reconcile 835 with 837
- Quick, intuitive manual procedure if 835 not available
- Track and document denied claim status
- Generate aging and other receivable reports
- No extra data set up
- Automatically validates 837 prior to submission
- Handles replacement or resubmitted claims
- Eliminate the "one claim at a time" process — all claims are uploaded electronically at one time

## Benefits

- Eliminate the costs and risks of paper or ineffective systems
- Streamline billing procedures
- Eliminate billing data entry
- Increase cash flow by billing earlier, more often without increased cost

## One Affordable Monthly Fee

- \$573.85 per month for the first 200 clients
- \$1.84 per additional client
- Set up, implementation and training provided
