# NEW CONTRACTOR-READY WORKFORCE SOLUTIONS

## Inspections

- Capture inspections using any web-enabled tablet, smartphone, or telephone
- Create inspections for each job location
- Correct deficiencies
- Track trends to improve service
- Provide clients with proof of performance

## Internet-Based Work Order & Equipment Tracking

- Managers enter and review work orders from any PC or smartphone
- Maintain database of recurring and individual work orders
- Notify managers automatically by email of new and upcoming work orders, equipment inspection or maintenance

## Manager Mobile Work Center

- Use Quick Check to see who is working, who is late, who is early
- Manage work orders
- Track equipment
- Organize employee schedules
- Quickly fill open positions
- Receive no-show and other alerts
- Document absenteeism
- Manager PTO requests
- Approve payroll
- Track frequent offenders

## Advanced Employee Scheduling

- Improve attendance
- Use email schedule prompting to remind employees about their next shift
- Integrate more smoothly with time and attendance

## Biometrics

- Integrate biometric punches into MITC in real time using a $599 fingerprint reader
- Track the device used by each employee
- Eliminate buddy punching

## Additional Services and Publications

As customers deploy MITC to address more and more issues, MITC has extended its customer service and implementation plans to provide greater assistance and direction.

A major new publication, *How Executives Use Time and Attendance*, provides valuable insights into how other contractors have successfully implemented advanced time and attendance and scheduling solutions to produce valuable financial and operational results. Order your free copy at info@mitcsoftware.com, or visit www.mitcsoftware.com.

## MITC Cloud

Employ MITC Cloud and minimize the need for additional IT infrastructure and staff. By choosing MITC Cloud, organizations can minimize their focus on IT.

Organizations — regardless of size — can benefit from using MITC Cloud. For small organizations, MITC's modular solutions provide an easy and affordable way to track employee time and attendance, and administer payroll and HR services. For large organizations, MITC provides strong functionality for time and attendance, labor tracking, advanced employee scheduling, analytics, and absence management.
