

REAL-TIME BILLING

Real-time billing allows you to capture attendance in real time using an infrared scanner, the telephone or PC.

Real-time billing allows you to

- Track client attendance in real time
- Streamline billing procedures
- Eliminate data entry costs

Get control of billing

- Capture client attendance daily
- Track daily actual hours versus authorized hours
- Highlight daily under/over serviced clients
- Generate no-show and unauthorized attendance warnings

Streamline billing

- Automate rounding and billing unit calculations
- Report by client, service and location
- Track authorizations
- Report usage, percentage of authorization, percentage remaining, etc.
- Calculate ratios and billing dollars
- Eliminate billing data entry
- Export to billing

Agencies use MITC to

- Maximize revenues
- Minimize costs
- Boosts productivity

MITC is designed for agencies serving individuals with intellectual and developmental disabilities that can no longer afford the costs associated with manual systems. Unlike general purpose time and attendance systems, MITC provides a complete solution and services to support all the needs of an agency.
