

WEB EMPLOYEE TIMESHEETS

DESIGNED FOR CASE MANAGERS, THERAPISTS, AND OTHERS TO CAPTURE PAYROLL, BILLING, AND DOCUMENTATION

Web Employee Timesheets is one of the extensive range of choices MITC offers for capturing time and attendance. Hundreds of agencies are already using MITC telephone timekeeping, biometrics, web clock, PC Clock, and other technologies to:

- Eliminate paper timesheets
- Capture time and attendance for payroll and billing
- Eliminate payroll and billing calculations
- Eliminate data entry

Web Employee Timesheets allows staff members who are unable to clock-in and out in real time, to use a web form to enter attendance for payroll, billing, and documentation at their convenience.

Paper timesheets cost money and time and expose agencies to risks in the event of audits. Web Employee Timesheets allows all agencies of any size to easily justify getting rid of the paper.

- Web Employee Timesheets puts the paperless agency within reach of any and every agency!
- For selected staff only
- Clock-in and out anytime, anywhere (during the day, end of the day, etc.)
- No need to clock in and out in real time
- Track unlimited number of clients worked with during the day
- Enter activity code for billing
- Optionally pre-populate Timesheet from Schedules to minimize data entry
- Optionally copy one day records to the next day to minimize data entry

Web Employee Timesheets is available as a customer-hosted solution or through MITC Cloud for one low monthly fee with no commitment.
